

# 7 Reasons You Should Hire Chase Given For Your Event!

7. **Versatility** - With a song list of over 350 songs covering Current & Classic Top 40 Dance Hits, Country, Classic Rock, Funk/Soul Classics, Jazz and seasonal songs (Halloween Hits, Christmas Music) as well as specialty songs (Salsas, Merengue, Polkas, Patriotic, and Songs For Jewish Events), Chase is prepared for any event.

6. **You Get A DJ At Chase's Shows** - Chase noticed early in his career (sometimes with bands he played in) that during private parties, the band would bring electrifying energy to the stage, but during the band breaks, the volume of the PA would go down and a CD would go in the system that would slow the energy level down completely. Chase believes that even when he takes a brief break from the stage, that the energy level should stay just as high. As a result of that, Chase and the band bring a DJ kit and a music library of over 30,000 songs to keep the party going strong.

5. **Chase Knows His Place** - As an entertainer at an event, it is an absolute MUST to know your place. Chase is very aware that there are shows that he has been hired to draw all attention to the stage and dance floor, however there are many shows that Chase is more than happy to serve as "wallpaper" as he calls it. This can have a tremendous impact on musical selections, volume, guest interaction, and so much more. Rest at ease knowing that Chase is more than happy to be the LIFE OF THE PARTY, or simply set a mood for fellowship and enjoyment!

4. **Family Friendly** - Chase comes from a large family of entertainers. He realizes the importance of being family friendly at shows. With a huge song list, Chase can easily play top hits and either opt out of a song that might not be appropriate for your event, or alter the lyrics for more conservative crowds. Additionally, you won't hear inappropriate words or stories coming over the microphones during the shows. Let's not make your grandmother cringe, or teach a new bad word to your 3 year old! Chase realizes that he has the greatest job in the world, but it's a job. Chase's organization works clean and sober at every show to maintain the highest level of professionalism!

3. **Using The Latest Technology** - Chase has 4 different sound system configurations available for every show, in-ear monitors on stage, and utilizes LED lighting. This keeps power consumption to an efficiency that won't blow a circuit, keeps the stage volume under control, and keeps the temperature in the room and on stage nice and cool! He even utilizes some wireless technology with speakers to post speakers away from the stage to provide sound on a patio or lawn away from the dance floor area if needed.

2. **Flexibility & Dependability**- Chase wants to be incredibly approachable to you, and to all of your guests. Additionally, Chase is very focused on being dependable and flexible to his clients.

1. **Committed To Making Your Event The Best** - At the end of the day, Chase's #1 concern is making sure that your event is memorable, as effortless as possible, and flawless (if that's even possible). Every single show is different and Chase will do all that he can to make sure that he and his organization live up to your expectations! Thank You for your consideration! We'll see you soon!
